THURSDAY JUNE 1, 1911

Know that "impossible" has no place in a brave man's dictionary.—Carlyle.

SITE SHIFTING MISREPRESENTATIONS.

Deliberate misrepresentation and buncomb continue to constitute the warp and woof of the Site Shifters' campaign, as expressed by the morning organ.

By the last mail from Washington, the Governor received a letter from the secretary to the Delegate to Congress in which the writer reported the suggestion of the Attorney General, of amending the law so that a Supreme Court justice might sit as judge of the Federal Court in cases where the Federal judges are disqualified.

The whole drift of the Attorney General's attitude as expressed in Mr. McClellan's letter is toward hastening the condemnation for the purchase of the enlarged Mahuka site, as directed by act of Congress.

Site Shifters try to shift the meaning of the letter into an expression in favor of site shifting and of the Irwin site. They misrepresent the whole situation in this instance as they have in every other.

If there were a fair degree of honesty, and a fair response to general public sentiment among the site shifters the whole Mahuka site question could be settled inside of three months. We should know the value of the property that these people so hate to have brought to the point of honest valuation.

If it is not settled in that time, the cause will be the self-seeking and community-blocking private interests that are using every effort of their own and bringing to bear every political trick of misrepresentation and technical legal delay to defeat not only the law of Congress but the many-times-expressed sentiment of the people of this city.

Mr. Wickersham sees that Congress will promptly pass a law that will facilitate carrying out the direction contained in a previous act of Congress. But Congress may be depended upon to go very slowly in amending a law that will change a Federal building site already purchased and for which additional area is ordered condemned. The reply of the Site Shifters to the suggestion of the Attorney General is a misrepresentation of their own standing, and the threat that they can keep the condemnation case in the court for months that will finally stretch out to years.

It is about time to call a spade a spade in this Federal site business.

The whole site shifting game is one of trying to exhaust the patience of the people till they will throw up their hands in disgust. It is a hold-up.

But the people will refuse to be held up. Don't think for a moment that Honolulu citizens who have declared and re-declared for the Mahuka site will be tricked out of what Congress has given in response to their requests, by a campaign that is consistent only in its supreme selfishness, its lack of public spirit and its attempted misrepresentation of what goes on here and in Washington.

This community would indeed show itself to be as multi-minded as the site shifter petition manipulators if it replied to a practical suggestion of the Attorney General, for hastening the satisfaction of an act of Congress, by asking for a Congressional act that would defeat the wishes of the people and be flagrant bad faith on the part of the Government.

The new era for Honolulu will be too speedy for any hobbie skirt procession.

The game down in Mexico is not over, but they have taken Diaz out of the box.

If they were Japanese instead of Mexicans below the line, what a time R. Pearson Hobson would have!

Quite a while has already been occupied in talking about it. Isn't it about time to begin cleaning up the town.

The trail of the mosquito is the trail of death. Then why under the sun should the mosquito be allowed to live in this city.

The coronation event is to be a great promotion stunt looked at from a dollars and cents view. But it is one they hardly wish to repeat very often.

As no apologies have to be made on the salary question, the Board of Pub-

lic Instruction has every reason to demand efficiency in all departments of its service.

Why not be honest and let the condemnation proceedings go forward in the manner that will hasten a fair valuation of the Mahuka site extension that is involved.

The success pessimist is being rudely bumped by the report that crops on the island plantations are to exceed the estimates that were thought to be a little optimistic.

No better aid to sanitation progress has yet been suggested than Chairman Carter of the Sanitation Commission in charge of a series of "seeing Honolulu" tours for business men.

While they are investigating, why don't the members of Congress call justices of the Supreme Court to testify from what corporations they received fees previous to accepting office on the bench.

Kaimuki Home For Sale

A splendid 5-room house. New, modern plumbing; 2 bedrooms; large bearing fruit trees in yard. Is near 6th avenue, and but a short distance from cars.

Price is \$1250

Lots For Sale --- Palama

Fourteen lots in Palama. Prices run from \$200 per lot to \$625.

Trent Trust Co., Ltd.

WE have FOR RENT three furnished houses in Makiki, Pensacola and Nuuanu Districts, for from three to six months.

These are choice residences and will be rented at a reasonable figure to anyone who will take good care of the property.

Bishop Trust Co., Ltd.
BETHEL STREET

The Government of the United States is doing its utmost to give Honolulu a Federal building. The Site Shifters are the gentlemen who are holding up the progress of Honolulu at the present time.

Hawaii bought more goods by a million dollars during the nine months ending with March 1911 than for the same period of 1910. Yet there are lots of people of the mainland who don't know that there's even a market in Hawaii.

Chairman Carter says Honolulu must decide. If Honolulu goes at it the way Carter is dealing with the Mahuka site and Lightfoot is tackling the Board of Health harbor regulations, it may talk a whole lot, but never get anywhere.

If you are one of the men who reads of what the Sanitation Commission finds and then says it is none of your particular business, you can put yourself down as one of the things that Honolulu has to drag along, and

score progressive results in spite of you.

If the Attorney General did not consider an act of Congress binding on the officers of the Government, he might hesitate about sending Judge Dole back to his duties at the expiration of his leave of absence. But Wickersham does not hesitate. He orders that the court proceed with this work with all possible haste.

When it was proposed to turn the water works over to the city administration, the objection was made that the policy of developing and handling would be too frequently changed. Now the Territory no longer provides for the expenditure of additional sums to develop the gravity system, than the proposal is made in loud and strenuous terms that gravity water is worse than useless except to create electric power for draining the artesian system. The Territorial policy can be reckoned as changed on an average of once a week. The city and county couldn't do worse.

A. & B. WILL TAKE \$400,000

Stockholders of McBryde Sugar Company held a special meeting this morning to settle some details of the million-dollar preferred stock issue decided upon some time ago. The meeting was held at the offices of Alexander & Baldwin and as most of the details had been practically agreed upon beforehand, was more than a matter of form than anything else. The arrangements made were along the line as previously indicated in the Bulletin. An amendment to the agency contract between Alexander & Baldwin and the McBryde Sugar Company was agreed upon, giving either party the right to cancel the agency agreement upon six months' notice. The plan of a sale of preferred stock to Alexander & Baldwin was also decided. Alexander & Baldwin taking \$400,000 of the million-dollar issue. The company takes the stock upon the condition that the remainder of the issue be disposed of, McBryde management being given until the end of the present year to negotiate the sale of the rest.

SCHOOL TROUBLE UP SATURDAY

The troubles of the Kaliahwaena school are to be considered at the meeting of the Commissioners of Public Instruction which is scheduled to convene Saturday morning. Superintendent Pope's attention was first drawn to the difficulties in the school when he received a letter from Mrs. E. J. Hall in which she made a number of severe criticisms upon the administrative abilities of Principal

Cox. Lack of discipline and irregular promotion are two of the reasons given by Mrs. Hall for wishing to leave Kaliahwaena.

It is claimed that the children are unmanageable and that the circulation of improper pictures, the using of bad language and smoking about the school premises are common occurrences with which the principal has been unable to cope.

The teachers who are declared to wish to leave the school are Mrs. Hall, Mrs. Lee, Mrs. Coulter, Mrs. Mann, Miss Scheffler, Miss Gertz, Olive Horner and Elizabeth Heen.

Inspector Gibson is preparing a report on the school for presentation to the Commissioners Saturday.

REPUBLICANS ENDORSE FIVE

Endorsements for positions as members of the tax appeals courts of the various islands were made yesterday afternoon by the Republican territorial executive committee. Three were named for Oahu and two for Hawaii. Two more for Hawaii are to be named next Saturday.

Those endorsed for the Oahu board were B. von Damm, Theo. F. Lansing and L. C. Ables. This is for the first judicial circuit.

For the third judicial circuit, the Kona section of Hawaii, George P. Tulloch and R. Wassman were named. The Hilo-Hamaku section, or fourth circuit, will be taken up next Saturday.

Kaunoi, the fifth circuit, and Maui, the second circuit, will not be considered, as no tax appeals have been made in either case.

It is reported that G. Negoro and S. Tazaki, who were among the leaders of the Higher Wage Association, which was formed during the strike period, will return to Hawaii in the administrative abilities of Principal

E. O. Hall & Son, Ltd., was to have held its annual meeting yesterday afternoon, but the meeting was postponed and will be held on call later. Some reports were not complete. Election of officers will be held at the postponed meeting.

MRS. C. F. McWILLIAMS, the wife of the general passenger and freight agent for the Great Northern Steamship Company in the Far East, is a through passenger in the Japanese liner Tenyo Maru.

CAPTAIN G. F. SUMMERLIN, connected with the American Embassy at Tokyo, Japan, is a through passenger in the Tenyo Maru, bound for the mainland.

Have Your Watch Cleaned Occasionally

A watch will run without oil or cleaning longer than any other piece of machinery—but it needs both occasionally. If you will consider that the rim of the balance wheel travels over fifteen miles a day, you will not grudge your watch a speck of oil and a cleaning once a year. It will increase the life and accuracy of your watch. Leave your watch with us today.
